

SMT Catch up 2017

Events

The Cantabrainers Choir has been run by Therapy professionals for the past 6 years. This is coming to an end this year. The choir concert will be a celebration and thanks for therapy professionals for their support in getting the choir to where it is today.

The Conductor of the Cantabrainers Choir is our very own RMT Kimberley Wade. She alongside other passionate members of the choir will be having discussions as to how best to continue the choir. If you know anybody who would have the skills to assist in this area please contact us.

The Cantabrainers Choir is having their annual Christmas Concert. With featuring artist Naomi Fergusson.

SAYING GOODBYE:

This December we say goodbye to our music therapist Liz Bolwell. Liz has been with us for just over a year and has brought lots of energy and passion to her job. The team will be going out to lunch to thank Liz for her hard work and wish her well on her new adventure with the Music Moves Me Trust.

Jenny and Kim will continue the Southern music therapy (SMT) service both at the Granada Centre and in the community.

SESSION TIMES: KEEP YOUR TIME

Timetables for next year are being organised. Please let us know if you know of someone wanting music therapy or want to change your time or are planning on finishing your music therapy service, so we can adjust the timetables accordingly.

WE ARE CLOSED:

We will be closed over the school holidays from the 23rd of December till the 12th of February 2018. First sessions will start on the 12th of February 2018.

WORKSHOPS

This year Kimberley has presented at the Music Therapy Symposium, at several U3A lectures, at Canterbury University, Probus club and at an in-service for the Allied Health at the Public hospital. She co-facilitated the accessibilities concert for Chamber Music New Zealand. There is a growing interest in Music Therapy which SMT is very exciting to be a part of. Contact us if you would like to book a workshop/presentation for 2018

Merry Christmas, from your Southern Music Therapy Team.
